

# THIS IS IT!!!

## The FINAL Public Hearing regarding PXP Oil Drilling

This is the hearing where the County Board of Supervisors will vote to ratify a flawed CSD (Community Standards District zoning overlay) that will control the drilling of oil from the Baldwin Hills Oil Fields for the **NEXT 20 YEARS!**

The County Planning Commission changed the number of oil wells that PXP can drill from 1065 to 1060. Progress? Adequate? We say **NO!**

Do you want the County Board of Supervisors to accept the Planning Commission's CSD as written? **NO WAY!**

They approved a weak CSD with no provisions for environmental or property damages, no satisfactory control of air, water, or land pollution, and no public emergency plan in place. Safe? Realistic? **NOT EVEN CLOSE!**

## YOUR PRESENCE CAN CHANGE THE FINAL OUTCOME

**The Supervisors will hear you only if you show. Your voice will affect their vote. Please be there Tuesday morning, October 21, 2008 at 9:00AM.**

***Free Park and Ride Busses (call now to reserve your seat)***

We have several bus options and can make arrangements for pickups of groups of 10+
